Running out of time again  
were did you go wrong this time  
When your problems overwhelm you  
Go get drunk it's party time  
Take a quelude relax your mind  
Relax your body too  
Run from your Mother but you'll never get away  
No loves you and you wonder why  
Sitting there with your mouth fucked up  
Your Eyes are glazed Your face is red  
Who's gonna pick you up and use you for tonight

When your on the streets with a needle in your arm  
Selling your body for another fix  
Who's gonna pick you up and take you home with them  
tonight

Your running out of breath again  
Your not made your only 15  
Your loosing your little girl song  
Cry all night you'll never get it back  
Don't be afraid it's not to late  
Save your self  
I need to hear  
Wearing off wearing out  
I can't think about it cause it makes me sick

Sitting there with your mouth fucked up  
Your Eyes are glazed Your face is red  
Who's gonna pick you up and use you for tonight  
Not Me Not Me

When your on the streets with a needle in your arm  
Selling your body for another fix  
Who's gonna pick you up and take you home with them  
tonight  
Not Me Not Me Not Me Not Me Not Me
