"Dry Spell"

Visit "[Dry Spell](#)" on MotoLyrics.com

If it was for me, I thought it would come so easy

I never realized life's just a series of lows and highs

I just wanna create, it doesn't matter how I do it
Nobody ever said there's nothing to it

Goosebumps been gone for way too long

Couldn't get it for free, couldn't do it for the money
It just disappeared — spent a lot of barren years and

If it doesn't work out, you can just set it down for later

Nobody ever said you'd be dead forever

Goosebumps been gone for way too long

Who knows how long they'll stick around

If it was for me, I thought it would come so easy
I never realized life's just a series of lows and highs

But nobody ever said there's nothing to it!
Couldn't get it for free, didn't wanna have to try to do it

Goosebumps been gone for way too long

Who knows how long they'll stick around

Goosebumps been gone for way too long
Who knows how long they'll stick around

Please stick around
