(Lyrics and Music by B. Stevenson)

\* I know a place, up in the air  
It's not very far, I've been there before  
I know a place, cool and warm  
Cooling my blood, warming my heart  
\*\* So come on down and walk with me, and tell me I'm  
your man  
I only want to know a couple of things about you  
Where were you when I was in so much trouble with  
myself  
And do you still believe in me like I believe  
\*\*\* I've been thinking good good things about you  
Cool and warm, good good things about you  
If you've been thinking good good things about me  
So cool and warm when you put your arms around me

On my own, I know where to go  
Living the lie, in your eyes  
I know a place, cool and warm  
Cooling my blood, warming my soul  
So come on down and walk with me, and tell me I'm  
your man  
Let's see if I can get it right with you this time around  
I'm not afraid of losing you, my little girl  
But do you still believe in me like I believe  
\*\*\*
