Jealous of the world again  
Dont even try to be my friend

Everything is wrong for me

And everything's right for them

Jealous of the world again

Don't give a shit about your deadly sin  
Jealous of the world again

I'd like to interrupt you

Fuck you to everything you say

It's nothing personal, mind you

But either you or I should go away

So go away

Jealous of the world again  
Don't even try to be my friend

Everything is wrong for me

And everything's right for them

Jealous of the world again

I represent the worst in man  
Jealous of the world again

You belong to a useless subset

The one that's not me  
Don't try to define my problems

Or understand me  
I'll trip you up, I'll flip you off

Pardon me  
Don't wanna hear your voice

I think I'll fart on your face

And there's nothing you can do  
And there's nothing I can do

I'll just stay away from you

I'd like to make a comment

Roll down the window and scream

I hate you 'cause I hate me

I gotta shake this disease
