i know i don't control you
i know i don't own you
but i still feel a sense of pride
'cause i know what we have is alive
it's alive and it always used to frighten me
now i know it'll always be a part of me
it's alive

i know sometimes we're strangers
i know there's still some danger
but i still feel a sense of pride
'cause i know what we have is alive
it's alive and it always used to frighten me
now i know it'll always be a part of me
it's alive

alive more than survive
more than get by
more than our lives
it's alive

i know we'll be together
i know forever
baby, look into my eyes
and you'll know what we have is alive alive alive
it's alive and it always used to frighten me
now i know it'll always be a part of me
it's alive

it's alive and it always used to frighten me
now i know it'll always be a part of me
it's alive

it's alive
[3x]
