Making A Cross
Salt in my dreams
Tracks in the bone
I've never been dead this long before
Star on the ground
Stepped on the lie
To find myself born inside a stone

I'm making a cross of all you are
And up on the hill I hear your name
I'm making a cross of all you are
And up on the hill I hear your name
I'm making a cross of all you are
It's never been easy

Salt in my schemes
Dry as a tear
It's never been easy to know
Frozen in fate
Hooked on a line
I heard you say it could be mine

I'm making a cross of all you are
And up on the hill I hear your name
I'm making a cross of all you are
And up on the hill I hear your name
I'm making a cross of all you are
It's never been easier
