You held me up held me down made me crazy then you
brought me around
Were my darkness and my light you were my blindness
and my sight
Were my shelter and my storm made my cold then you
made me warm
You were my fever and my cure made me doubt and
you made me sure
One step forward and two step back nobody gets too
far like that
One step forward and two steps back this kind of dance
can never last
[guitar]
You were my hope and my fear you were my laughter
and my tear
Were my destiny and my faith kept me moving and you
made me wait
Were my weakness and my power you were the thorn in
the flower
You were my sunshine and the rain made me feel so
good brough so much pain
Now one step forward...
[guitar - steel]
And we never really meant for each other we were
never really meant to last
In the years that we danced together each step forward
we took two steps back
Each step forward we took two steps back
Now one step forward...
One step forward...
