Oh

There will never be a better time

Oh there will never be a greater time

Oh

Oh

Oh if I could change, change everything

Yeah if I could change my name, learn to forgive

Yeah there's never been a better time

Oh I know there will never be a greater time

Now have I looked, forgot, I'll lose my way

Have I looked for you, I'll lose my place

Kissing anything that comes my way

Yeah burning anything that will burn

Yeah

Oh

I wanna change, change everything

Yeah I'll learn to change my name, learn to forgive

But love, love passes me by in all the wrong places,  
places

Love passes me by, I'll lose my way, now I wanna catch  
them all

There will never be a greater time

No I know there, there will never be a better time

Yeah there will never be a better time

There will never be a greater time
