It's a true love not a new love that makes my life so  
much better  
Tried and proven down through the ages  
And it's guaranteed to keep us all together  
Little children teach us so much remind us of what  
we've been missing  
Something precious left behind us gathering dust while  
we've been drifting  
I think you know what I'm speaking of  
When you're down on your knees all alone in the night  
Would you turn away hey from a true love  
There's not a man of us alive who can deny true love  
[ guitar ]  
Without the blessing of a true love a life so cold and  
uncaring  
It's the message for a lifetime and the sweetest gift of  
life is the caring  
I think you know...  
[ guitar ]  
I think you know...  
There's not a man of us alive who can deny true love
