This has been the longest night I've ever known  
It's so long since I felt this alone  
Sometimes I just can't see the way things are supposed  
to be  
Now that the twilight has gone  
Now there is nothing left to say there you go you have it  
your own way  
Been in the dark so long we couldn't see where it went  
wrong  
Now that the twilight is gone  
The first step is the hardest part where do we take it  
from here  
Only after a hardened heart do tears finally disappear  
And I'm on my own now that the twilight is gone  
[ ac.guitar - dobro ]  
Lonely nights and crazy days we sure let it slip away  
Just tell me life goes on is there a new day with every  
dawn  
Now that the twilight is gone now that the twilight is  
gone  
Now that the twilight is gone
