There's a brand new baby in our house  
The nicest little gift we've ever had  
How much fuller life's become  
No one knows what makes it hum  
'Til you call each other mommy and dad  
There's a brand new baby in our house  
And though he's been there just a little while  
In the parlour in the hall  
Every picture on the wall  
Seems to know because they all wear a smile  
I can't explain what he does to my heart

With his infant charms  
I never knew what heaven was  
'Til I held an angel in my arms  
There's a brand new baby in our house  
He's twice as sweet as honey from the comb  
He's the image of my spouse  
He's the tricky micky mouse  
Who has changed our happy house to a home  
We thank the lord  
Whose love and wondrous powers  
Gave us the brand new  
Grand new  
Baby of ours
