### "Plague Of Mine"

Visit "[Plague Of Mine](#)" on [MotoLyrics.com](http://MotoLyrics.com)

A voyage through time and eternity  
Through sorrows, grief and pain  
This fucking life - this fucking pain  
An eternal plague of mine

This fucking life - this fucking pain  
An eternal plague of mine

I soar in this level between life and death  
Not knowing where I am heading  
This total silence, this total calm  
Makes me wanna die

This fucking life - this fucking pain  
An eternal plague of mine

Eternal death is calling my name  
The world below awaits me  
My life finally laid to rest  
The world below awaits me

I soar in this level between life and death  
Not knowing where I am heading  
This total silence, this total calm  
Makes me wanna die

Eternal death is calling my name  
The world below awaits me  
My life finally laid to rest  
The world below awaits me

A voyage through time and eternity  
Through sorrows, grief and pain  
This fucking life - this fucking pain  
An eternal plague of mine

This fucking life - this fucking pain  
An eternal plague of mine
