Hes killed once hell kill again.
Hell kill till everything thats yours is his.
Hell kill your reason, hell kill your pride.
With a big fat smile when you finally die.
Dark and dreary and terribly dead,
Walking into heaven without a head.
Hes killed once hell kill again.
Hes killed each and every one of your friends.
Hes killed your pets, hes killed your wife.
Hes taken every important part of your life.
Dark and dreary and terribly dead,
Walking into heaven without a head.
Black, black, black from the dead. [x4]
Black, black, black from the dead. [x14]
