Demons

Demons gonna get into you
Demons gonna stick it to you
Demons gonna rape it
Demons gonna take it
Demons gonna take over you

Demons gonna take it to far
Demons gonna take it past death
Demons gonna take it 'till your life force runs cold
Demons gonna be your last breath

Demons gonna make it unreal
Demons gonna make it jack off
Demons guide you through the pain
Demons gonna fuck you straight
Demons gonna make you get off, get off, GET OFF

Demons
Look at me

Demons gonna make it too dull
Demons gonna make you see bile
Demons take you from the front
Demons snipping up your cunt
Demons gonna ask you for a smile, and you'll smile
Demons gonna you drag heel
Demons gonna make it such a waste

Taken to it's final goal
Where there is no control
Demons do it with blood shit and pain
