Cheat, lied, stole from your friends

I am not the only one, I've been killing you for fun

Degenerate, exterminate, imaged to fools disgrace  
Human face, human race, you are God's biggest  
mistake

Social, inept, fortified, no matter how much filth we buy  
Now their fees come down in price, for the cause I  
sacrifice  
Little girls, little boys, inexpensive little toy

Degenerate, exterminate, imaged to fools disgrace  
Human face, human race, you are God's biggest  
mistake

Dire critical  
The part of you I never knew  
Dire critical  
Don't tell me that you're blind  
Don't tell me you can't see  
This fucked up shit in front of you  
It's not in front of me  
I don't care

Human face, human race, you are God's biggest  
mistake  
Exterminate the human race, you are God's biggest  
mistake
