You say it's not good enough for you, but then you say
it's not good enough for anyone but you.

So you curse me, and you hit me, and you claw me, to
bleed.

You say you just have to be left alone, so now you're
alone.

Then you want me, and you want me, and your want
turns into your need

Submission is free, it's just what we need.

When I talk you'd better listen to me.
Submission is free, it's just what we need.

When I talk you'd better listen to me.

So I grip you by the back of your mane, you say it's no
good without a little bit of pain.

You say I do nothing but hurt, I'll show you hurt.
So you curse me, and you hit me, and you claw me, to
bleed.

Then you want me, and you want me, and your want
turns into your need

Submission is free, it's just what we need.
When I talk you'd better listen to me.

Submission is free, it's just what we need.
When I talk you'd better listen to me...

Wake up, to me your all just slaves, now here's some
medicine, so you will behave...
