As I bake in this rancid oven that we call earth,  
hard to breathe through filth and muck that rides our  
air.

All I taste, the bile phlegm collects within.

Feeling like shit, again, again, again, again!

**URA FUCKING LOSER AND YOU ARE NOTHING!**

Never rise, stuck within the depths of which I dwell.

No way out, feel I'll meet my maker soon.

I'm just waiting to die and take a different form.

I am cold, smiling as hate keeps burning my soul.

**URA FUCKING LOSER AND YOU ARE NOTHING!**

You're a fucking loser!

That's all that you'll be.

You're just a fucking loser!

No, not me!

**URA FUCKING LOSER AND YOU ARE NOTHING!**

**FUCK OFF YOU AIN'T SHIT!**
