I'm an invincible force of evil  
my eternal hatred is destructive  
there's no chance to survive  
I incarnate the end of mankind

I'm in crest of human flesh  
and I agonize in a pool of blood  
don't try to escape or resist  
cause christ won't help you tonight

Invincible Force  
Invincible Force  
you break down in the morass  
turn and see them blood stained claws  
now i tear the shreds out of your face  
now you will curse your day of birth

you agonize in a pool of blood  
you scream out and begg for mercy  
don't try to escape or resist  
cause christ won't help you tonight
