nowhere to run  
and nowhere to hide  
sing the song  
you better keep inside  
with loaded guns  
on holy ground  
like a deadly punch  
desperados in town

nowhere to run  
and nowhere to hide  
don't try to be strong  
don't even try to fight

for when we'll be gone  
you might still be around  
and you sing this song  
'cause desperados in town

showdown has come  
with deadly sound  
it's a quick draw game  
desperados in town

nowhere to run  
and nowhere to hide...
