"Dust Of History"

Visit "[Dust Of History](#)" on MotoLyrics.com

Take my hand and follow me - i'll open up your eyes
Let's travel back in history - let's watch a legend rise
Wyatt never harmed a man - never took what was not
his

The devil had another plan - his own dirty little list

People spread so many lies - but this here is the truth
Our journey's ending as he dies - beginning at his youth

Join me - i will show you show you - follow me - to the
dust of history oh yeah!

The loss of love teared out his heart - he lost his will to
live
A good man had just turned to bad - he had no more to
give
The man he was exists no more - he had to get it
streight
With pride he fights upholds the law - powered by his
hate

People spread so many lies - but this here is the truth
Our journey's ending as he dies - beginning at his youth
so

Join me - i will show you - follow me yeah - to the dust of
history
Trust me let me proove you - come with me to the dust
of history yeahh! come
