A loaded gun, a moving heart, some people think
revange the best part
better not more, keep your head down low, you know
when he gets you, he'll do it
real slow

think if you may live or not, it ttale much more than you
have got
raging uncontrolled... this is the

Earps vendetta, it's gonna bring you down
this is the Earps vendetta, jugement day has come

dressed in black, right on his way
you know he'll gets you, it's your turn to pay
a fist full of anger, so let's start to pray
the man in black has come to stay

think if you may live or not, it ttale much more than you
have got
raging uncontrolled... this is the

Earps vendetta, it's gonna bring you down
this is the Earps vendetta, jugement day has come
