reflections of a damned  
by fiendish symptoms send  
sarcastic roars of laughter  
from far away it sounded

the rulers of eternal suppression  
awaking from their hybernation  
plundering and subjugation  
bloodtrails... gomorraH of the plains

no worthy penalty  
never met their destiny  
who'll take the part of catching hands  
to get this scabby jacks

the rulers of eternal suppression

awaking from their hybernation  
plundering and subjugation  
bloodtrails... gomorraH of the plains

reflections of a damned  
by fiendish symptoms send  
sarcastic roars of laughter  
from far away it sounded

the rulers of eternal suppression  
awaking from their hybernation  
plundering and subjugation  
bloodtrails... gomorraH of the plains
