Please just give me a sign
let me know that you're mine
I need you..
Can you make me see
so that I can believe
I need you..

I believe it, I can see it
there's no secret, you know I can feel it
can I try to
-what can i do?-
be without you..

Tell me where has all our love gone
didn't have to turn,I'm sure of,
Tell me where has all our love gone..
Take your time and come,together,
can we be so close for ever?
say that you'll never leave me,never..

Love's no need to hide
feelings locked up inside
I feel you..
Can't you swallow your pride
take me close by your side
I need you..

I believe it, I can see it
there's no secret, you know I can feel it
can I try to
-what can i do?-
be without you..

Tell me where has all our love gone
didn't have to turn,I'm sure of,
Tell me where has all our love gone..
Take your time and come,together,
can we be so close for ever?
say that you'll never leave me,never..
