When I rolled into town it was raining  
You met the bus but you brought along a friend  
You introduced me to him but I guess I looked right  
through him  
I didn't come all the way to Calgary just to see you with  
another man  
It's a long way out here from Nova Scotia and your new  
love wasn't part of my plan  
But I knew from your smile you'd be with him for a while  
I didn't come all the way to Calgary just to see you with  
another man  
[ banjo - dobro ]  
I guess I'll be leaving tomorrow for home I'll try to  
forget you if I can  
I don't stand a chance if I don't know to dance  
I didn't come all the way to Calgary just to see you with  
another man  
[ ac.guitar ]  
I didn't come all the way to Calgary just to see you with  
another man
