I WANT THAT FEELIN' AGAIN

(Bill Anderson)

© '80 Stallion Music

I want that feelin' again I want that feelin' again
I had it once and it got away and I want that feelin'
again
I want that feelin' again I want that feelin' again
I had it once and it got away and I want that feelin'
again
I felt it early in the morning I trembled through and
through
It was wicked and wild warm and wonderful wakin' up
next to you
And I felt it again in the evening soon as the sun went
down
That sweet soft sexy feelin' I can wrap my arms around
And I want that feelin' again...
Take me back to the magic in which my soul believed
Where every smile was a rainbow and every kiss was a
dream
We had it didn't we have it and it burned didn't it burn
But we blew it didn't we blow it baby mhm make it
return
And I want that feelin' again...
And I want that feelin' again...
And I want that feelin' again...
