In your letter you said please don't try to find me  
I'm leaving cause you're choking me to death  
Your love is like a chain that ties and binds me  
And I'm goin' off somewhere to get my breath  
I didn't mean to come on strong believe me I've just  
always loved you in a hungry way  
And now to think that's causing you to leave me  
I'm so confused and hurt by what you say  
If I loved you too much I'm sorry if I loved you too much  
and make you go  
If I loved you too much forgive me but I loved you in the  
only way I know  
[ steel + piano ]  
If I loved you too much I'm sorry if I loved you too much  
and made you sad  
If I loved you too much forgive me but you were all I  
had
