IT'S JUST GONNA TAKE SOME GETTING USED TO

(Bill Anderson)

© '74 Stallion Music

It's not that I can't get up in the morning and go fry
myself an egg

It's not that I can't reach and put a bandaid on the
scratch on my leg

It's not that I can't iron a shirt and sweep up dirt and
feed the bird

All the little things you used to do but it's just gonna
take some gettin' used to

It's not that I can't organize the checkbook and make
sure the bills're paid

It's not that I might sleeping in the house all by myself
I'm not afraid

And I can water all the plants and made my pants and
spray for ants

All the things I never had to do it's just gonna take
some gettin' used to

I'm just gonna have to take my life and do a little
rearranging

But I don't mean that something's bad necessarily just
cause it's changing

I've heard it said a man can adjust to anything except
to have a rock down in his shoe

It's just gonna take some gettin' used to

I may be the only man on this whole block who's the
lady of the house

But someone's gotta stay and float a ship when the
captain's bailing out

So you go on and have your fun and worry none and
listen hon

I won't be here grievin' over you it's just gonna take
some gettin' used to

I'm just gonna have to take my life...
