LEAVE ALL THE HEARTACHE TO ME

RECORDED BY KITTY WELLS

If two other lips are what you long for
If our love is melodrama that just can't be
Go on out with someone else enjoy living
And leave all the heartache to me
I'll stay home and count the teardrops while you go out
and party
I'll envy you for being so carefree
You can laugh and love with her and be contented
And leave all the heartache to me
Don't think upon our romance as a failure
Don't hate yourself for wanting to be free
Just look forward don't look backward and be happy
And leave all the heartache to me
I'll stay home and count the teardrops while you go out
and party
I'll find comfort in a few old memories
You can laugh and love with her and be contented
And leave all the heartache to me
