Love me and I'll be your best friend and you won't have  
to be alone ever again  
I'll sing with you in the sunshine I'll shelter you from the  
raindrops and the wind  
Love me and I'll be your best friend

I wanna be your lover and and slowly spread your hair  
down on my pillow  
I wanna hold you close to me and feel your gentle  
breathing on my skin  
And when the loving's over I'm gonna wrap my arms  
around your shoulders  
Look you in the eyes whisper baby that's the best it's  
ever been  
Then I wanna lie with you and listen to the thoughts that  
you've been thinking  
Found out where you coming from what it really is that  
makes you fly  
I want you to know I'm somene you can go and rest  
your troubles  
Whatever you can cross or a mountain you can climb  
up to the sky  
Love me and I'll be your best friend...
