"Smooth Southern Highway"

My roads have been rocky and the women's been
rough
I woke up this morning and I'd just had enough
When I get to her sweet arms I won't feel alone
She's a smooth southern highway that's takin' me
home
She don't have no mountain that I cannot climb
She don't want to own me body and mind
Her roads are not winding like some I've been on
She's a smooth southern highway that's takin' me
home
Smooth smooth southern highway smooth and going
down my way
When I get to her sweet arms I won't feel alone
She's a smooth southern highway that's takin' me
home
Smooth smooth southern highway
