Sometimes I catch myself staring at you while you're
lying fast asleep
I memorize the moment and lock it away
In my heart somewhere where it'll keep
Sometimes I still tremble when you brush against my
skin
Where your hand reaches out to touch my face
I've never known anyone like you before
And I know I'll never see the likes of you again
No one in this world could ever take your place

And in case you don't know it this is a love song
And it comes from the heart of someone who loves you
so
I don't always show it so this is a love song
You are loved I just wanted you to know
And in the quiet times when you talk to me
I hang on to every word that you say
You might not always see my love but it's always there
You still take my breath away
