What good is my life if I don't have you  
cause all of my dreams are built around you  
I'd be like Miami without any sun  
Without you I'm nothing without you I'm nothing  
together we're one  
The roar of Niagara when you are near  
turns into a drip when you disappear  
Imagine a party without any fun  
Without you I'm nothing without you I'm nothing  
together we're one  
When I'm happy oh it tickles me too  
When I'm crying you know it hurts me through and  
through  
It takes two hands to make one hold I belong to you  
baby body and soul  
If you ever leave me and you don't come back  
I'd be like a train without a railroad track  
Just like a river with a no place to run  
Without you I'm nothing without you I'm nothing  
together we're one  
When I'm happy oh it tickles me too...
