"We"

Visit "[We](#)" on MotoLyrics.com

We walked the warm streets of Florida with sand in our
pockets lots of times
Walked the cold streets of New York with two guitars
and a tin cup just for dimes
We spent one winter in Winnipeg a summer in the
Mississippi sun
Had some trouble once in Fargo some bad times in
Enceno but we had fun
We made the papers once in Phoenix when we stopped
and tried to break up a fight
We hit keno in Reno and lost it all in Vegas the very
next night
We hopped a train in Chicago and skinny dipped in San
Francisco bay
We checked it all in the big hotels then used the fire
escape to get away
And we wouldn't trade it all for the world and all of its
gold
It's the past that makes the future worth livin'
Mother Luck's been good to us and we will praise her in
our songs
For the good times and the good love she has given
[ac.guitar]
We flew into Kansas City early April 24th without a
plane
We got stranded in a snow storm with some folks from
Salt Lake City on a train
We spent a week one night in LA looking for a doctor's
daughter on the strip
Then we wound up in Nashville pitchin' songs and
waitin' tables for a tip
And we wouldn't trade it all...
And we wouldn't trade it all...
