WITH MARY LOU TURNER

Where are you going Billy boy where are you going  
Billy Boy  
I'm going to Atlanta let this farm just run on down  
It's made all it can make but it don't go around  
Do you want to go with me Mary Lou do you want to go  
with me Mary Lou  
I'm not sure I could live there I don't have no city ways  
And it's hard to leave where I was born and raised  
Look at all those buildings Billy boy I think I'm gonna  
like it Billy boy  
Look at all the bright lights the night seems just like  
day  
It makes the farm seem so far away  
Where are you going Mary Lou you're not going out  
again tonight are you  
I didn't buy this  
new dress just to sit and watch TV  
I'm going out and let the town see me  
Where are you going Billy boy where are you going  
Billy Boy  
I'm going home back to that rundown farm  
Where all the dirt is used for growing corn  
Do you want to go with me Mary Lou
