Bill Anderson & Jimmy Gateley

She's something special there's no doubt she's all I  
ever think about  
No, I couldn't live without the woman in my life  
Her tenderness is beyond compare she's an answer to  
my prayer  
When I need her she's right there the woman in my life.

A miracle it had to be the day she came along  
And changed a man that was so weak into a man so  
strong  
She's been my whole world from the start  
She knows I'm lost when we're apart.  
And I love with all my heart the woman in my life.

A miracle it had to be the day she came along  
And changed a man that was so weak into a man so  
strong  
She's been my whole world from the start  
She knows I'm lost when we're apart.  
And I love with all my heart the woman in my life...
