The one I love found another she ran away with my best friend

Came home last night for just an hour daylight came she's gone again

Well you can have her I don't want her she never loved me anyway

She only wanted someone to play with but all I wanted was love to stay

[guitar]

Well if you get the wrong woman there's only one thing you can do

Just dig a hole crawl right in it and pull the ground in after you

Well you can have her...

[steel]

Life without love is mighty empty when you've got no one that you can hold

I'd rather have love I can cling to than have the world and all of its gold

Well you can have her...

Well you can have her...
