Visit "[Cage Of Time](#)" on MotoLyrics.com

See the world with different eyes  
Some see the truth and some the lies  
Observe the darkness and the light  
From the cage of iron times

Prisoned on a metal star  
Progress comes where human beings are  
Live together in a cage of time  
Defend against all throes of death

Our time is coming closer  
Indication outer space  
The orbit is instable  
All achievements are in blaze

Unfold oneself, oneself regress  
Cycle rules we must confess  
Cannot resist against the  
Cage of time  
Defect a sign
