It all went wrong
The world has failed
And no one really cares
But who should be the one to show
A better way, a better case to
Get out of this misery
All joy seems like away
I've seen the world, I've seen it all
Everybody failed

So let us go, go, go
And let us find some luck
I want more, more, more
We never had enough
And will we find something
That really satisfies
I don't know but
I know that we have to try to find

We can't go on
Like others did
The last two thousand years
We can't go on
Start to complain
Let's face it all
Let's face our fears
And no one's under pressure
And we all get what we need
The world has tried
We've seen it all
Everybody failed

So let us go, go, go
And let us find some luck
I want more, more, more
We never had enough
And will we find something
That really satisfies
I don't know but
I know that we have to try to find
