When nothing will be the same  
What can stop the cry-outs of pain  
The end has come for the warhorse crusade  
No one can hide in this masquerade

Someone says the end is near  
But we've got nothing left to fear  
Deliver us from torture  
Deliver us from pain

Can you feel the fear tonight  
Waves of thunder roar  
We are blinded by the light  
Here comes atomic war

Blinded by the cloudy heavens  
Gazing at the blood red sky  
Falling rain will wash our skin  
Atomic winter is closing in

Iron bird sound, a piercing wall  
Waiting for the heavens to fall  
Deliver us from waiting  
Deliver us to peace

Can you feel the fear tonight  
Waves of thunder roar  
We are blinded by the light  
Here comes atomic war

Slowly but surely poisoning the soil  
Calmly making it's pace  
Come heaven, come hell the power that bends  
Raging battle has come to an end

Pierced by concrete, iron and lead  
Ended humanity's maidenhead  
Deliver us from suffering  
Deliver us to god

Can you feel the fear tonight

Waves of thunder roar  
We are blinded by the light  
Here comes atomic war
