The silent sorrow surrounds me  
Can't find my own way out  
The tomorrow will haunt me  
I'm hidden up in the clouds

I'm coming home, I'm flying high again  
I'm coming home, you're my dearest friend  
Don't lock me out, I have nowhere to go  
Don't lock me out, Don't stop this soul deep show

Can you imagine my fear  
When you're not available  
Why are you not staying here  
And make yourself comfortable

This hidden place is my Shang Ri La  
This forbidden space is my well  
Just come along, inhale and come with me  
Don't try to hide from the things you will see

Now we're on our way  
How do you feel my friend  
Now we can save the day  
It will become a lifelong pretence  
This country is made for you and I  
Don't betray our secret  
It's further up above the sky  
There is no place for regrets

When the daylight is going down  
Then you have lost the crown

There's no longer a chance to win  
If you wanna stay in sin  
You will have to pay the price  
For the benefit of feeling nice  
The undiscovered country's law  
Is fair but also raw  
It's no use to run and hide  
There is no escape from this ride  
now when you have met your soul

face the fact your getting old  
No time to lose, do or die  
look at yourself, look in the eye

The silent sorrow surrounds me  
Can't find my own way out  
The tomorrow will haunt me  
I'm hidden up in the clouds
