All the times we spent together laughing at the beach,
life don't last forever but memories do. oohwooh

there's nowhere to go there's nothing to say there's no
one too see we miss you

Life is for living you lived it to the full u lived it like
every second
was your first and every day was your last ohwooh
there's nowhere to go there's nothing to say there's no
one too see we miss you

Your smiling face helped us through the bad times, we
can't believe your out of our lifes and were still here
missin you ohwooh
there's nowhere to go there's nothing to say there's no
one too see we miss you

there's nowhere to go there's nothing to say there's no
one too see we miss you
ohwooh we miss you
