Living in a future that was not meant for me.  
People all around me. I got nowhere to flee  
The eyelid of the camera points at every pace  
Wishes to see something, there's just an empty face

I lived in sorrow  
The demon in mind

Times long forgotten it still haunts my head  
Years of resilience, someday all end up dead  
In moronic oceans, I'm trapped I can't get out  
Wickedness and horror will get me there's no doubt

I lived in sorrow  
Wash the demons of my mind

There's no way out  
Stand up and shout  
There's no way out

When the earth was younger there were so many  
things  
My life was a riddle but I saw an opening  
Community of madness I thought it was the way  
Troubles all and over I knew I couldn't stay

I lived in sorrow  
Wash the demons of my mind

There's no way out  
Stand up and shout  
There's no way out  
Stand up and shout
