Nothing Left To Fear

The edgy electric eye controls you day by day,  
so nothing in the process can go wrong.  
The cloning was a success taking control over human  
minds.  
There are thousands of me and I feel so strong.

Nothing to fear.  
I have nothing left to fear.  
There will come a day when I'm the only one that exists.  
Then I'll be the master of the world.

There has been a rumor that says  
I don't have so far to go,  
try me dear, I'll show you what I can do.  
I am immortality, don't make a big mistake  
and try to kill me when I need you so.

Nothing to fear.  
I have nothing left to fear.  
There will come a day when I'm the only one that exists.  
Then I'll be the master of the world.

Now I'm flying high  
Now I can't die.  
Now I'm all alone.
