Somewhere deep in bear country  
Lives the berenstain bear family  
They're kind of furry around the torso  
They're a lot like people, only more so

The bear fact is that  
They're just like you and me  
The only difference  
Is they live in a tree

The berenstain bears

When things go wrong as things might do

The berenstain bears will find a way through  
Momma, poppa, sister and brother  
Will always be there for each other

The bear fact is that  
They can be sweet as honey  
Sometimes you'll find  
They might be just plain funny

The berenstain bears  
The berenstain bears
