(Hmmm)

You looked in my eyes
And said it wasn't true
I feel in my heart that that's a lie

I don't have to think
Cuz I already know
My friends would say a lie
Even though they hate you they showed me the picture

(Chorus)

I'm still holding on
To the end (even though he's a cheater)
Just promise you'll never do it again

You were my first
Don't you know
And I don't want to loose you now
Cuz I already know

I'm never gonna loose you (yeah, yeah)

I'm still holding on
Till the end (even though he's a cheater)
Just promise me you'll never do it again

(Bridge)

I believe evryone deserves a second chance
So do you
Even if you are a cheater
Cuz I know everyone deserves a second chance

I'm still holding on
Till the end (even though he's a cheater)
Just promise me
You'll never do it again
