Just say where you want to go
I'll take you there
Just make a wish
I'll grant your wish

You don't have to worry cuz I'll always be there

You know that I will be there
Through the ups and down
I'll be there til down
If you want to go to san francisco
If you want to go to new york
I'll take you there, anywhere.

I would take you around the world
If you wanted to
I would let you see the stars up above
Then kissed you and said

You know that I will be there

Through the ups and downs
I'll be there till down
If you want to go to san francisco
If you want to go to new york
I'll take you there, anywhere.

Baby I would let you see australia
Baby I would take you anywhere as long as you're with
me
I love you

You know that I will be there through the ups and downs
I'll be there til down
If you want to go to san francisco
If you want to go to new york
I'll take you there, anywhere.

I love you
