

## Destiny Star "Love"

Visit "[Love](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Did you know that love is a big thing  
Love stretches from the ground to the sky  
Love is bigger than anything you can imagine

When you say I love you think about what you say  
Cuz it might be a good thing  
You'll never know  
What's gonna happen

I never knew what to say  
But I found a way  
To say I love you  
I looked in you beautiful eyes  
Said those three words then ran away

When you say I love you  
Think about what you say

Cuz it might be a good thing you'll never know  
What's gonna happen

Love, love, love  
I saw that dove  
That flew in the sky  
And I thought of you and your love

When you say I love you  
Think about what you say  
Cuz it might be a good thing you'll never know what's  
gonna happen

When you say I love you  
Think about what you say  
Cuz it might be a good thing  
You'll never know  
What's gonna happen.
