Michelle (Man in background): Hey, how are you? I'm doing fine. Just enjoying the music. Do I wanna dance? Oh, I dunno about that. You're quite handsome yourself. Do you really want to? Child, I don't think you ready.

Verse 1: (Beyonce)

Ooh (ooh)

Don't act like you don't want it like I do (do)

(Kelly)

I know you like it.

(Beyonce)

What are you staring at me for.

Let's settle this on the dancefloor, for sure.

I said hey (hey)

I'm feenin' fot your touch, I can't wait (wait).

(Michelle)

It's hypnotizing.

(Beyonce)

I love the way you move with your 2 step.

You're bout to make me lose my breath.

Bridge: (Group)

What you seem to me.

What you mean to me.

My first, my last, my everything.

A superstar, that's who you are and . . .

(haa haa)

I can hardly breathe.

(Kelly)

But I won't say a thing.

This feeling's overwhelming me.

So naturally that I fall in deep.

Chorus:

You're looking kind of fly when I walk by.

Feeling good in every way.

You just made my day (my day).

Baby boy, you make me lose my breath.

Bring the noise, you make me lose my (haa haa).

You ain't gotta look up in the sky.

All eyes on me.  
Sexy, I'm free, take me (take me).  
Baby boy, you make me lose my breath.  
Bring the noise, you make me lose my breath.

Verse 2: (Kelly)

Ooh (ooh)  
I think I got a crush on you (you)  
(Michelle)  
I'm so excited.  
(Kelly)  
You make me want to seal the deal.  
Let's find a spot to chill for real.  
Oh hey (hey).  
I'm feenin' for your touch, I can't wait (wait)  
(Beyonce)  
Look in my eyes and . . .  
(Kelly)  
Let me know what you want from me.  
Because the club closes at three, oh.

Bridge: (Group)

What you seem to me.  
What you mean to me.  
My first, my last, my everything (my everything)  
A superstar, that's who you are and . . .  
(haa haa)  
I can hardly breathe.  
(Beyonce)  
But I won't say a thing.  
This feeling has come over me.  
Controlling me that I fall in deep.

Chorus:

You're looking kind of fly when I walk by.  
Feeling good in every way.  
You just made my day (my day).  
Baby boy, you make me lose my breath.  
Bring the noise, you make me lose my (haa haa).  
You ain't gotta look up in the sky.  
All eyes on me.  
Sexy, I'm free, take me (take me).  
Baby boy, you make me lose my breath.  
Bring the noise, you make me lose my breath.

Verse 3: (Michelle)

If you can't make me say ooh.  
Then maybe you're not doing your thing.  
I don't need money, cars, diamond rings.  
(Beyonce)  
C'mon, c'mon.

Michelle:

If you can't make me say ooh (ooh, ooh).  
Then I'mma have to find somebody.  
That can keep up with me.  
Before the clock strikes three.

Rap:

Don't be surprised.  
Undressing you with my eyes, shorty.  
I hear the music bumping.  
I wanna grab somethin.  
You all alone and not a man in sight.  
You make me wanna come and spend the night.  
Because you're just that tight.  
I sneak behind you, put your hands in mine.  
You rest your head on my shoulder, it ain't that hard to  
find.  
Show me a sign girl, 'cause I wanna beat it and skeet it.  
It's in your mind girl, 'cause you a freak and you need  
it.  
But on the dancefloor, you got a brother craving for  
more.  
Love how you work them hips and how you dip.  
But you far from a whore.  
From head to toe, you embody freaky gestures.  
And yes sir, I made it my mission to go and get her.  
So let it be known I'm turned on by your velocity.  
Your generosity's feeding my curiosity.  
Yea, I can keep up, and I hope you kiss and tell.  
Run home to call your friends and tell them that you  
kept up with Mel.

Chorus:

You're looking kind of fly when I walk by.  
Feeling good in every way.  
You just made my day (my day).  
Baby boy, you make me lose my breath.  
Bring the noise, you make me lose my (haa haa).  
You ain't gotta look up in the sky.  
All eyes on me.  
Sexy, I'm free, take me (take me).  
Baby boy, you make me lose my breath.  
Bring the noise, you make me lose my breath.
