How ya doin' honey baby?  
No i don't ask for much  
But for a girl spending  
Time alone can be pretty  
Rough but I get a knock on  
My door you know it's yours  
For sure can't wait for the  
Bedroom so just hit the floor

{bridge}  
Ya'll alright i don't know  
But i know what's happen to  
Me girl,hey  
Ya'll alright  
Uh,break it down now

{chours}  
See you got to work it out  
See you got to work it out  
Brother got to work it out uh  
Child blow you horn now,c'mon  
Child blow your horn now

So we shaking back and forth now  
Just keep it comin' babe  
Treat my body like a guitar  
Ya gotta,ya gotta keep on stromin'  
But in the back of my mind  
Is it gonna be the last time  
Well if it ain't about lovin'  
And you gon' keep it comin'  
Well baby with me that's fine

{bridge}  
{chours}

I like this, oooh heey,  
Uh looky here uh Bring it  
So baby hold me like you  
Don't wanna let go  
I'm fellin' foxy

'cause boy you workin' it out  
You giving me a taste of yo  
Honey i want the whole bee hive  
I'm gonna call you my suga  
'cause I {l}had the sweetest time  
{sweetest time}

{chours}  
See ya gotta work it out  
See ya gotta work it out  
Brother gotta work it out uh  
I like when ya horn blow  
I like when ya horn blow  
I like it when ya horn blows  
I like it when ya horn blows

Austin better work it out  
Foxy better work it out  
Ap3 better work it out
