It's too far
It's too fast
It's too quick
It won't last
It's not right
But it's not wrong
There's no time
Move along
But I've come much to far
And I know what's in my heart
And I know what I feel
I can tell when it is real
My Time has come
It's ok
Be afraid
It's all right (all right)
You just take that fear
Turn it into your strength
It's called life (called life)
And that's why we're here
Now I've come much to far
And I know what's in my heart
And I know what I feel
And this time I know it's real
My time has come
And like the road below me
I know I touch the sky above
(a million)
A million footprints around me
Telling me it can be done
My time has come
(Now I come)
I've come much too far
And I know what's in my heart
'cause I know what I feel
And this time I know it's real
My time has come
It's so close
It's been a long time coming
It's here and now
And I know it'll last
It's so right

That it can't be wrong
Now's the time (now's the time)
For me to be strong
Now I've come much to far
And I know what's in my heart
And I know what I feel
This time I know it's real
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
I know that I just gotta keep moving on
'cause I know
I know what's in my heart (I can feel it)
My time has come
